Concatenate Arrays

**DESCRIPTION**

SOLUTIONS 8847

COMMENTS 8

CODEWRITING

SCORE: 300/300

Given two arrays of integers `a` and `b`, obtain the array formed by the elements of `a` followed by the elements of `b`.

Example

For `a = [2, 2, 1]` and `b = [10, 11]`, the output should be
`concatenateArrays(a, b) = [2, 2, 1, 10, 11]`.

Input/Output

- **[execution time limit] 4 seconds (js)**
- **[input] array.integer a**

Guaranteed constraints:

$1 \leq a.length \leq 10$,
 $1 \leq a[i] \leq 15$.

- **[input] array.integer b**

Guaranteed constraints:

$0 \leq b.length \leq 10$,
 $1 \leq b[i] \leq 15$.

- **[output] array.integer**

[JavaScript (ES6)] Syntax Tips

```
// Prints help message to the console
// Returns a string
function helloWorld(name) {
    console.log("This prints to the console when you Run Tests");
    return "Hello, " + name;
}
```
